

Feedback from Parents and Carers at the Foundation Stage Information Session 26th April on Physical Development

- Interesting to see the resources and fun ways to stretch their learning (be assessed) and things we can also do at home.

- Very interesting to see what they get up to at school. Lovely to see all the photos. Thank you.

- It was so nice seeing how the children are taught and seeing pictures to see how well they are interacting. Thank you.

- This was my first visit to the workshop but enjoyed every moment of it – great to see the school and home interaction.

- Once again a fantastic workshop that will help us as parents to support the children at home with familiar learning techniques.

- Another very useful workshop. I love hearing about what Lilly is learning and how I can support her at home.

- Really useful workshop. Interesting to see how physical development impacts on all areas of learning. Hearing about BEAM was good – had no idea. Photocopy of BEAM movements and about Write Dance would be really useful.

Action for the school

- Photocopy BEAM movements and send to parents along with information regarding Write Dance.
