

Christmas Tree Slime

You will need:

250ml washable white glue

300ml water

2 tbsp cornflour

red, silver or gold glitter

star-shaped glitter (optional)

green food dye

Instructions:

1. Pour the glue into a bowl, add a few drops of the green food colouring and mix well.
2. In a jug, mix the water and cornflour together.
3. Begin to add the cornflour-water mixture to the glue, a spoon at a time, mixing it well. Keep adding the cornflour-water mixture and combine until the glue has come together and forms a putty that you can hold in your hand. Add more glue or cornflour-water mixture until you get the consistency that you require.
4. Take the slime out of the bowl and knead it until it is no longer sticky.
5. Add the glitter (and glitter stars) to the slime. Continue kneading the slime to distribute the glitter evenly.
6. Now, enjoy your Christmas tree slime!
