

New Ash Green Primary School – Our Vision Statement

At New Ash Green Primary School, our outstanding levels of teaching and a dynamic curriculum inspire our children to develop their **curiosity** for a love of learning, allowing them to achieve their full potential. We thrive on enthusiasm and so, through inspirational leadership, children are encouraged to excel and develop **resilience** while learning how to **challenge** within a safe and caring environment. The well-being of all our children is paramount and enables a consistent approach to behaviour and provides them with **inspiration** to achieve their goals. At New Ash Green Primary School we value individuality, celebrate cultural differences and diversity, as well as promoting **independence** and **self-motivation**.

“We are curious about our world, ask questions and want to learn more”.

“We may not be successful at first, but we are brave and determined to try again”.

“We challenge ourselves to succeed”.

“We try to inspire others and others inspire us”.

“We are independent and have confidence in ourselves and our learning”.

“We are self-motivated in our learning and strive to be the best we can be”.

These **Core Values** form the bedrock to our school motto:

“Together Everyone Achieves More” =

Together

Everyone

Achieves

More
