

Maths Stay & Learn

Parent Feedback 07.11.23

It was lovely to see my children so keen in their maths learning.

Very helpful to see how they learn maths in a fun way!

Very informative! Thank you so much!

Lovely session from Mrs Cain and Mrs Gingell. Please provide a process for visiting multiple classes.

Really good presentation. Great work going on in the classrooms with maths learning. Really enjoyed experiencing a little time in class.

Very grateful for the opportunity to see how the class is doing. Thanks very much.

Absolutely amazing!

Great to see the fun ways the children are learning.

It was excellent to feel part of our children's learning journey.

Mrs Gingell was a superstar

A great insight into a method used for addition – tips to help with homework too! Thank you!

Great presentation reminding me to be positive about maths. Numicon to visualise adding. My child could confidently talk about lots of different aspects of maths.

Fantastic opportunity to see my children learning in a classroom setting and most importantly, having lots of fun in maths.
