Year 2

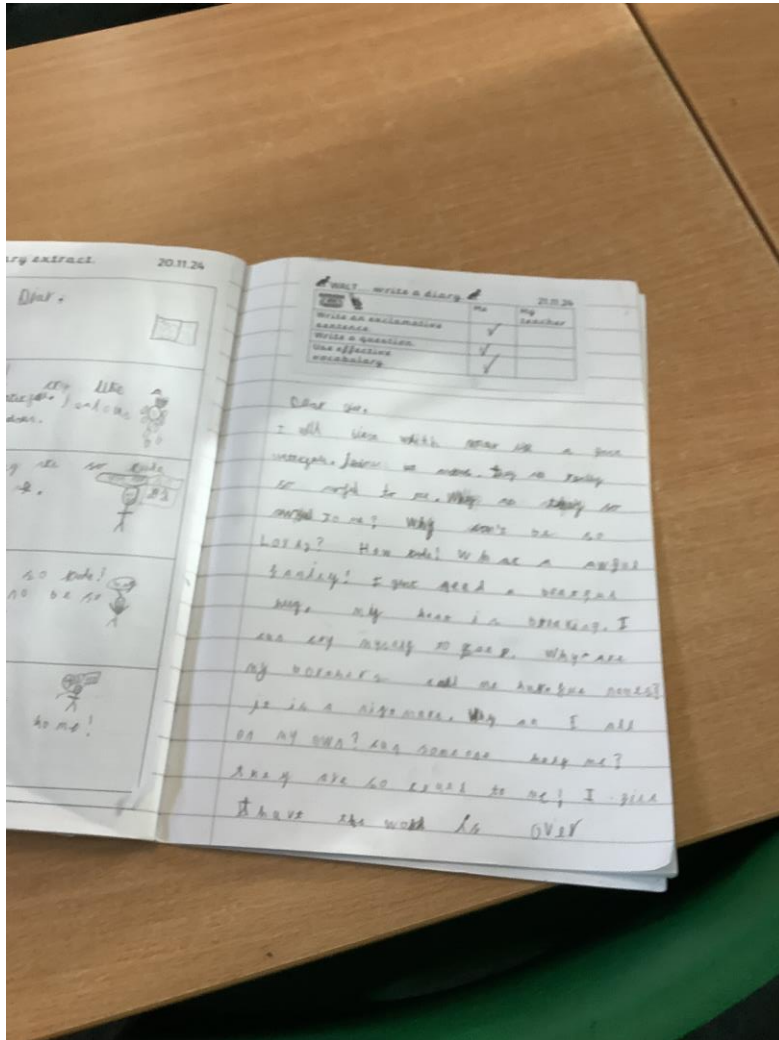

This week we have visited the terrific Year Two. Firstly, in their topic, they have been looking at dinosaur footprints and finding out what type of dinosaur or diet based on the footprint.

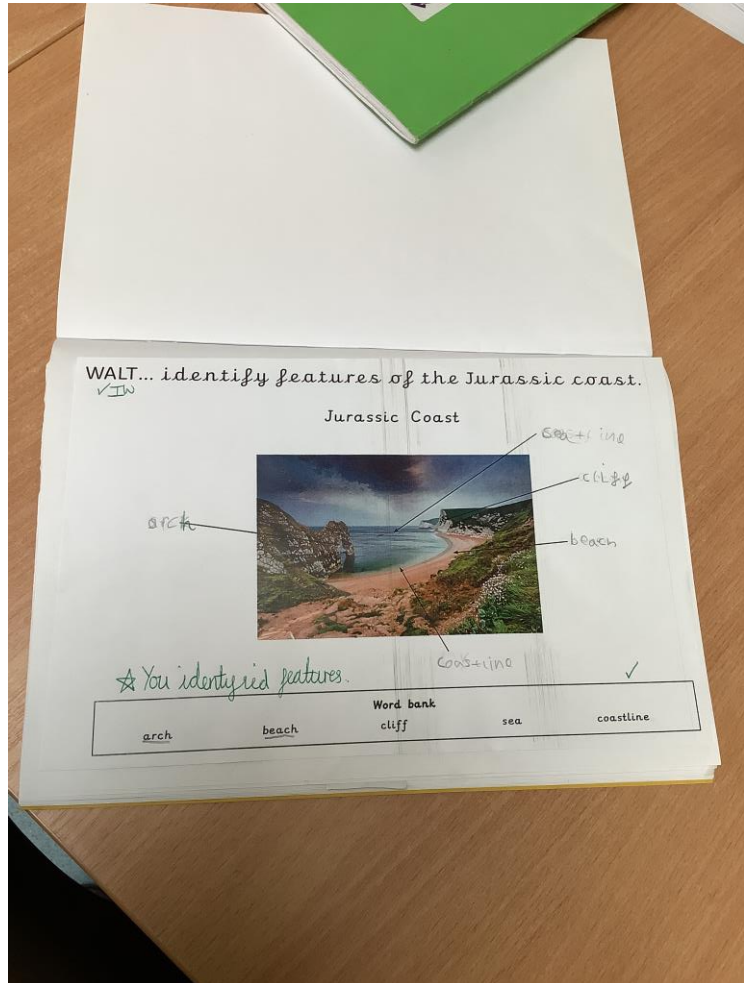

Maths

Then in maths, they have been looking at shapes and counting sides and vertices.

English

Next, in English, they have been writing a diary entry about Tyrannosaurus Drip, and if he needs a cuddle.

Geography

Finally, in geography, they have been looking at the coasts that the United Kingdom has.

And remember...

Together everyone
achieves more!
