Year 1

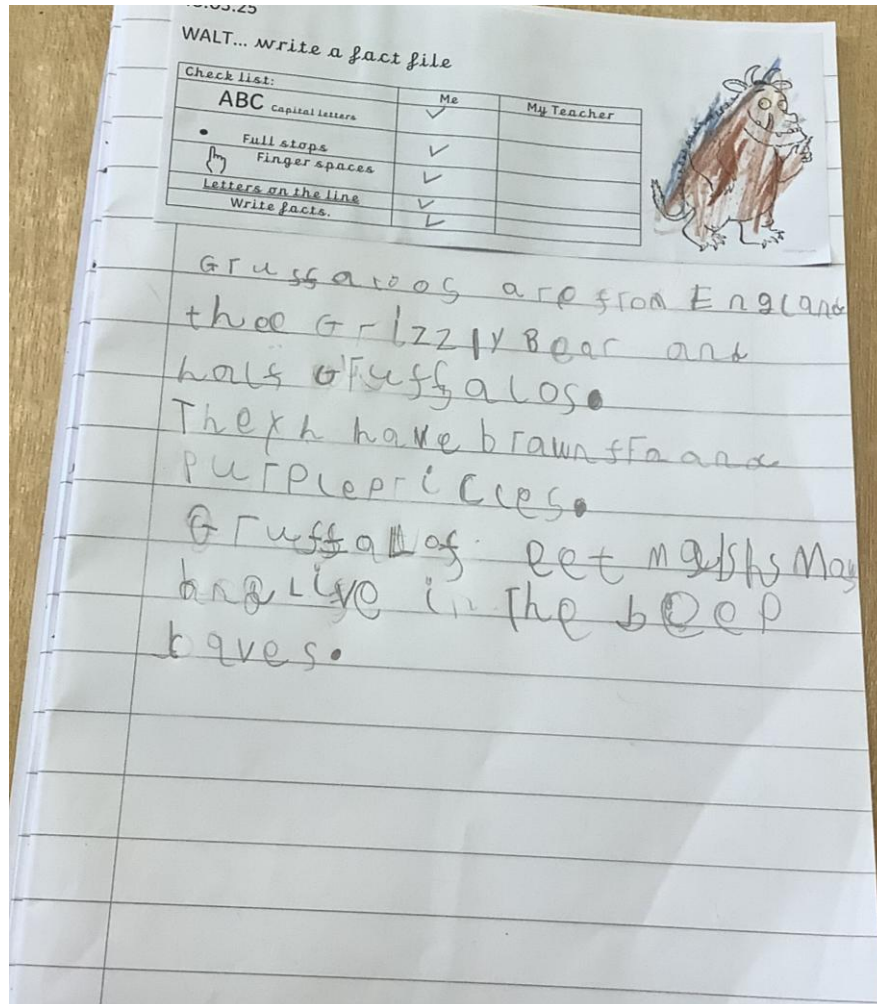

This week, we visited the wonderful Year Ones. First, in maths, they have been challenging themselves by counting in 5s and 10s.

Topic

Then, in topic, they made timelines about Christopher Columbus and learnt about explorers in history.

English

Next, in English, they have been writing fact files about the creature called The Gruffalo.

Science

Finally, in science, they have been putting skittles in a bowl and then pouring water. This makes colours appear.

And remember...

Together everyone
achieves more!
